Provision of FARGO Printer, Software, Computer
(Last Date of Submission – 16 Jan 26)

A fargo printer is required along with composing software and computer terminal for our organization. The detailed specifications and terms and conditions are as follows:-

Submit all documents in soft copy to : gso2it@afic.gov.pk
Submit all documents in hard copy to the address: IT Department, main AFIC building, AFIC, Rawalpindi.

Ser	Eqpt & Type of Revision	Qty	Specs	Remarks
1.	Card Printer	1	**HID FARGO DTC1500 ID Card Printer**	
			Print method: Dye-sublimation / resin thermal transfer	
			Resolution: 300 dpi	
			Print speed: 16 seconds per card / 225 cards per hour (YMCKO)	
			Included software: FARGO Workbench™ printer maintenance and diagnostic software with Color Assist spot-color matching	
			Security: Custom watermark overlay, resin scramble data protection, password-protected printer operation and AES-256 data encryption on the printer over a secure network	
			Card capacity: 100 card input, up to 100 card output	
			Accepted Card Sizes: CR-80, CR-79 Adhesive Back	
			Printer Options:	
			USB 2.0 interface for inline printing and encoding	
			Dual-sided printing	
			Single-sided lamination module	
			Smart card encoding modules (contact/contactless)	
			Magnetic stripe encoding module	

#	Category		Specification	
			Printer cleaning kit	
2.	Software HID Asure ID 7 And Features	1.	**Operating System Support:** Windows 10/11l	
			Dual-sided template designs	
			Add text field (variable and static)	
			Add photo fields	
			Import images (logos/graphics)	
			Add a linear barcode	
			Add magnetic stripe	
			Fluorescing panel (F-panel)	
			Add unlimited data fields	
			Add compound data field	
			Add 2D barcodes (PDF417, QR code and data stripe)	
			Set conditional design and print rules	
			Compatible with all HID FARGO card printers	
			Asure ID 7 is optimized to maximize performance with FARGO printers/encoders; however, it is also compatible with other popular printers in the marketplace	
3.	Computer Required	1	Core I5 8th gen 8 GB RAM SSD 256GB	
			22-inch LED	
			1 Keyboard	
			1 Mouse	

Warranty	• 1 x year replacement warranty • The project to be carried out by the vendor on turnkey basis • 50 x cards are also to be provided by the firm within this bid.
Acceptance Criteria	

	• The bidder shall compulsorily provide a compliance sheet mentioning full compliance/ partial compliance/ non-compliance against every feature mentioned in GSR.(format attached as Anx-C) • The bidding firms can request for conducting a survey of the facility before finalizing the equipment/ design.
Quotation Submission Requirements	• All bidders are required to compulsorily submit supporting documents with their bids (list attached as Anx-A). Any document missing will render the bidder unqualified. • The bidding firms will be subjected to technical scrutiny of the equipment, design offered. Firms qualifying technically will be subjected to financial shortlisting basing on the financial bids submitted.
